A RESPONSIBLE DIET FOR HEALTHY PETS

HAIR BALLS

FOR ADULT CATS WITH A NORMAL OR AVERAGE LEVEL OF ACTIVITY

Cats are animals that tend to lick themselves all the time to keep clean. For this reason, they swallow a lot of hair, an action that can be dangerous to their health. Brushing your pet often and giving it high-fibre food every day may be the solution. Malt extract also helps to control the formation of hairballs and facilitate their removal.
