A RESPONSIBLE DIET FOR HEALTHY PETS

## LAMB AND RICE

FOR ADULT DOGS WITH ALLERGIES OR FOOD INTOLERANCES

LAMB is a meat rich in high biological value protein, which makes it very soft in the intestine and highly digestible. It is especially suitable for dogs with high food sensitivity or for more refined palates. It promotes healthy skin and a radiant coat thanks to omega-3 and omega-6 fatty acids, as well as vitamins (B12 and B6) and minerals (iron, zinc and phosphorus).
