

nature

A RESPONSIBLE DIET FOR HEALTHY PETS

MAINTENANCE GRAIN FREE

FOR ADULT DOGS WITH A NORMAL OR AVERAGE LEVEL OF ACTIVITY

FREE FROM CEREALS. Nature is grain free. It contains neither corn, wheat, nor barley, only highly digestible carbohydrates derived from fruit and vegetables, which are also a natural source of vitamins and minerals.

Chicken fat is the main source of energy. This fat provides a large quantity of linoleic acid that promotes healthy skin and a radiant coat. It is highly digestible so it is completely assimilated by the intestine. It provides an appealing taste and appropriate texture to the food.
