

MAXX PUPPY

Complete and balanced food for dogs during growth and development. It complies with the protein and energetic standards established by the AAFCO (American Association of Feed Control Officials), and the NRC (National Research council) as necessary for puppy growth.

INGREDIENTES

- ← **Meat meal (mín. 40% of chicken)**
- ← **Corn**
- ← **Wheat**
- ← **Corn flour**
- ← **Oils and fats**
- ← **Mineral corrector**

AVERAGE ANALYSIS

HUMIDITY _____ 8%
CRUDE PROTEIN _____ 30%
GROSS OILS AND FATS _____ 12%
CRUDE FIBRE _____ 3 %

CRUDE ASH _____ 8%
CALCIUM _____ 2%
PHOSPHORUS _____ 1, 2%

The percentages of proteins and fats contained in **CROQUETTES PUPPIES** are those that the dog requires to cover its daily needs during growth and development. These needs vary depending on age, physiology, weather conditions, etc. and therefore change in different periods of the animal's life. For this reason, different feed products are manufactured to cover all these situations.
